
A
Decline and growth distributions
Growth rate g
Decline rate d
Calibrated simulations
Matched clinical cohort
B
Rebound weight and growth
Growth rate g
log10(rebound weight q)
Calibrated simulations
Matched clinical cohort
C
Decline and rebound weight
log10(rebound weight q)
Decline rate d
Calibrated simulations
Matched clinical cohort
D
Support in this specific calibrated cloud
n = 231; well + edge = 76.6%
