A
Point prediction under the two targets
Mean absolute error (cycles)
3.45
3.30
3.15
3.00
1.5
3.0
4.5
6.0
Number of early PSA measurements
Fitted biexponential nadir
Observed global PSA nadir
B
Patient-specific information
Spearman correlation
0.3
0.2
0.1
0.0
−0.1
1.5
3.0
4.5
6.0
Number of early PSA measurements
Fitted biexponential nadir
Observed global PSA nadir
C
Does the posterior concentrate?
Median posterior 95% width (cycles)
16
15
14
13
1.5
3.0
4.5
6.0
Number of early PSA measurements
D
Interval coverage by target
Observed coverage of 95% interval
1.00
0.75
0.50
0.25
0.00
1.5
3.0
4.5
6.0
Number of early PSA measurements
Fitted biexponential nadir
Observed global PSA nadir
